This website demonstrates react ecommerce in a simple way.

- ❖ Customers can increase,decrease or remove items from the cart
- ❖ Cart Designed to a Sidebar.
- ❖ Users can check details by clicking an icon

Technologies: React , TailwindCSS, Netlify, REST APIs

OBJECTIVE

I have a strong foundation in JavaScript, HTML, and CSS, and I thrive on translating design concepts into functional and interactive user interfaces. With a deep understanding of React's component-based architecture, I can efficiently develop reusable UI components that promote code reusability and maintainability.

EDUCATION

BA Economics in Dhaka College.

2023 - present

COURSES

WEB DEVELOPMENT

Programming Hero, Online
Dec 2022 - June 2023

LANGUAGES

English (Fluent)
